

PARLAYIT SUMMARY-

The sports betting industry is a billion-dollar industry. Everyday, millions of bets are placed around the world. Parlays have become a monumental factor of the betting scene. The way parlays work are instead of betting on a single game, you can bet on multiple games all at once. For example, let's look at the NBA. If you are following 3 games: Knicks vs. Celtics, Bulls vs. Heat, and Raptors vs. Nets, you can bundle bets from all 3 games together in a "parlay."

Parlays are exciting because they offer bigger payouts than regular bets, since you're combining multiple bets into one. However, they're also riskier because in order to win your parlay bet, ALL the teams you've picked need to win their games. If only one of them loses, you lose the whole bet. It's a bit like trying to balance a tower of blocks – if one block falls, the whole thing comes crashing down.

Here's where Parlayit comes into play! With Parlayit, you don't have to be perfect like you're fighting the house. Our innovative games allow you to miss a bet or two, but still have a chance to win. We grant you a safety net, so if one of your predictions doesn't quite pan out, you can still be in the game!

ParlayIt enforces P2P wagering as we do not have a traditional house. You place your parlays against others who are also looking to win.

With Parlayit, we offer two exciting pots: "Most Hits" and "Highest Odds." In the "Most Hits" pot, up to 10 players in a room compete to see who can make the most correct bets in their parlay. The winner takes home the entire pot, no matter how much it is.

In the "Highest Odds" pot, it's all about who can hit bets with the highest odds. Similar to the "Most Hits" pot, players in the room compete against each other for the chance to win big, based on the bets with the highest odds.

Our innovative "Draft a Parlay," brings you the best of two worlds: Fantasy Sports and Sports Betting. Imagine you are drafting players for your fantasy league, with "draft a parlay", you would instead be drafting parlay sheets against other users. This enables daily drafts and multiple draft rooms for you to participate in.

"Friend Zone" will allow you to chat and play head to head with your family, or friends you've made along the way.

Our "VIP" section will allow you to be a part of what we call the high rollers. The VIP section is where the big bets take place. Along with large bets, the VIP section allows you to buy/sell picks. This section will not only enable you to brand yourself, but let your record do the talking.

ParlayIt will be all about community.
